

BIOTECH SKY[®]

open the doors of health against diseases

SUPPLEMENT CATALOGUE

WHO WE ARE ?

Since 2015 **Bioteck Sky** has been combining Nature and Science creating effective solutions for personal wellbeing and care.

Food supplements, medical devices are always elaborated following the dictates of our philosophy: use Nature and learn about Science to improve people's wellbeing, balance and health. To make our product, we look for **excellent raw materials**, which are processed to keep their characteristics and effectiveness intact, aware of how much nature has given us and convinced that science helps us understand how to use it in best possible way for humans.

All of our formulas with the same care in the search for the best raw materials, in the formulation

of synergies of **effective active ingredients** and in the communication of sustainable values for Nature.

Nothing has been changed in our enthusiasm from the first day, but a lot has been improved throughout all these years.

Bioteck Sky Board

VISION

Bioteck Sky was born with a goal that is also a dream which comes to be a fact for **improving humans' health and wellbeing.**

We firmly believe that valuable projects that put that union between Science and Nature at the center of every action and decision are essential to make it happen.

MISSION

We provide our customers with high quality products in full compliance with Nature and phytotherapeutic tradition.

We keep **the active ingredients** present in **nature** as unaltered as possible by manufacturing our products with high technological processes and complying with the highest quality standards to promote **humans' health and wellbeing.**

WHY YOU CHOOSE US

IN THE
IMPLEMENTATION OF
PROJECTS.

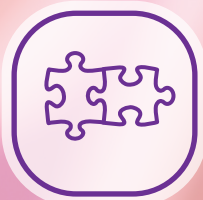

RAPIDITY

FLEXIBLE AND FAST
DELIVERY.

OUR VALUES

TRANSPARENCY

All the procedures we use, the transformation processes, and also raw materials are traceable and certified by third-party companies.

RESPONSIBILITY

We feel a strong responsibility for people's wellbeing and health.

RESPECT

All our proposals respect nature and the phytotherapeutic tradition. We try to keep the active ingredients of raw materials we use to create our products as unaltered as possible.

HUMILITY

Humility represents for us the most suitable and fertile ground for giving birth to creativity, to increase knowledge and acquire new skills.

QUALITY AND SAFETY

The achievement of the quality certification confirms our skill in formalising procedures that guarantee a high quality standard as well as a continuous improvement due to our commitment in listening and meeting the needs of our clients.

GMPs (Good Manufacturing Practices) are regulations that define the aspects of production, tests and controls with the aim of ensuring quality, safety and effectiveness of food supplements. In particular,

GMPs focus on the management of environments and methods of production, sterilization and control in the laboratory.

Safety and efficacy, fundamental characteristics of supplements, are obtained only with the strict observance of Good Manufacturing Practices during all phases of the production process and the subsequent analytical control.

Using Nature and knowledge of Science to improve people's health and well-being. We create products that reflect this philosophy, looking for excellent **raw materials**, processed in such a way that they preserve their characteristics.
